Optical Scientific Inc.

(formerly known as Scientific Technology, Inc.)

To: Whom It May Concern

Date: 14 November, 2025

Ref: Entela Certificate

Optical Scientific Inc. (OSi) holds a certificate from Entela for the conformity of our Optical Flow Sensors (OFS) to UL, CSA and IEC requirements since 2001. The physical certificate is made out to Optical Scientific Inc. at 205 Perry Pkwy., Suite 14, Gaithersburg, MD 20877. This was our business location for a number of years. In the mid 2000's we relocated to our current address at 2 Metropolitan Ct., Suite 6, Gaithersburg, MD 20878.

We have tried to have the address updated on our certificate but without success. Entela has been acquired by the ETL SEMKO division of Intertek Group plc. Intertek has been slow in responding but we will continue to contact them. In the meantime, we request that you accept our current certificate as valid as the address on the certificate was indeed our physical address at that time. Nothing has changed except we relocated about two miles away from the previous address to a better location. Thank you.

Peace and blessings,

Donn Williams
